Farm Games

1. GET DRESSED FOR WORK: contestants must run to the closet (a chair in the center of the arena) and put on bib overalls, a coat, hat, gloves, and boots. Once dressed in the intentionally oversized clothing, they must run to the "barn," or finish line.

All clothes have to cross the line with the contestant. If anything falls off, it has to be picked up and put back on before finishing.

2. FEED THE HOGS:

In this event, contestants grab a bucket, run to a water tank filled with shelled corn or water and fill it up. Then they run to a gate, open the gate and go through, then close the gate so hogs don't get out and dump their bucket into a trough (another bucket). If they don't manage to get to the trough with enough corn to fill it, they have to go back to the water tank for more.

3. FEED THE COWS:

Contestants have to pick up a small square bale, carry it across the "barnyard" and throw it over a gate. They then have to proceed through the gate, closing it so the cows can't get out, and then place the bale in a "bunk" (a square marked on the floor). With the hay "fed", they then have to go back through the gate, closing it completely and finally, race back to the finish line.

4. WHEELBARROW RACE:

Completion of an obstacle course.

5. PIE EATING CONTEST:

Pies will be provided and eating will be timed.

6. STICK HORSE RACE:

Fastest horse through gate.

Other events may added to farm games.
